2.5 EXPERTISE AND QUALIFICATIONS

In this section, the Offeror must demonstrate that it meets and/or exceeds all requirements regarding expertise and qualifications of personnel proposed to complete the work defined in the Statement of Work/Scope of Services of this RFP. Qualifications of personnel are considered of the essence of the services provided. Therefore, the Offeror must provide information on Key Personnel who will be the personnel performing the consulting services.

A. Relevant Experience

In the Expertise and Qualification/Relevant Experience Area, the Offeror should provide at least three references or identify contracts demonstrating that it successfully provided services/products that are the same or similar to those required in the RFP. The proposal should adequately explain the successful outcomes of the projects. It is highly recommended that the Offeror provide sufficient content and detail to answer completely the following questions.

1. Does the proposal include at least three references or past performance citations?
2. Are the references or past performance citations relevant to the requirements of the Statement of Work of the RFP?
3. Does the Offeror explain how they were successful on the projects provided as past performance?

In addition, although price may not be the most important factor, it is still very important to the City of Colorado Springs. The Offeror's pricing must be competitive as compared to the budget amount, market pricing in the industry, and the pricing of other Offerors. It is highly recommended that the Offeror provide sufficient content and detail to answer completely the following questions.

5. Does the Offeror leave applicable costs out of the calculations? For instance, some will say travel is not included and will be an extra cost. This should be considered when comparing to other Offerors.
6. Are there additional costs not addressed that the City would incur if the Offeror were awarded the contract? If so, include those costs when comparing to the budget amount and the competition.

3.3 SELECTION COMMITTEE

A selection committee will review all proposals. Through this process, the City will determine which proposals are acceptable or unacceptable. The City will notify, in writing, the Offerors whose proposals are deemed to be unacceptable. Those Offerors offering proposals deemed to be acceptable by the City will be evaluated and scored by the selection committee. This scoring will determine which Offerors are considered to be in the competitive range and may be the basis for an award decision without further steps.

If the selection committee elects not to award based upon evaluation scoring, it may engage in a forced elimination process. To inform this process, it may require oral presentations or interviews with the Offerors considered to be in the competitive range. If oral presentations or interviews are conducted, they may also be scored, or they may simply be considered as information supporting the forced elimination process. The selection committee may request revisions to the proposal from each of the Offerors at the conclusion of the interviews. The intent of the forced elimination process is to reach consensus. The decision will be based on all relevant factors, and based upon perception of best value. The final decision may or may not exactly reflect scoring ranking.

The City also reserves the right to request best and final offers from all Offerors at any point in the proposal evaluation process.

3.4 AWARD OF CONTRACT

It is anticipated that there will be negotiations or discussions with Offerors. However, the City reserves the right to award without negotiations or discussions. The City also reserves the right to award a contract not necessarily or merely to the Offeror with the most advantageous price. The City intends to award to the Offeror that demonstrates the best value to the City and the most substantiated ability to fulfill the requirements contained in this Request for Proposal. A contract prepared by the City will be finalized and/or negotiated with the successful Offeror. In the event a contract cannot be negotiated with the top ranked Offeror, the City may enter into negotiations with the second highest ranked Offeror, or the City may decide to call for new proposals. Immediately after the notice of award, the successful Offeror will begin planning in conjunction with the City of Colorado Springs staff (to be designated by the City) to ensure fulfillment of all its

A. PURPOSE AND INTENT

The City of Colorado Springs Housing and Community Vitality Department (HCVD) is seeking proposals from qualified firms/consultants to develop a comprehensive Housing Needs Assessment (HNA) of the city boundaries of Colorado Springs. The comprehensive housing needs assessment will include real-time data on current inventory and needs, as well as demographic projections and future housing needs. The City will use this assessment to continue and expand its efforts to increase affordable and attainable housing and meeting other housing needs of its residents. The assessment will include specific recommendations for geographic areas, strategies, and policies needed to promote infill while preserving and creating a mix of affordable housing types for households making from 0%-120% of the area median income.

a. Background

The City of Colorado Springs was awarded funding from the State of Colorado’s Infrastructure and Strong Communities Grant Program (Appendix A), which will be utilized in part to support the Housing Needs Assessment. The Strong Communities Grant Program is funded by the American Rescue Plan Act and provides planning grants to help communities align policies and regulations to locate affordable housing in infill locations near jobs, transit, and everyday services; ensure new neighborhoods have housing of all types, sizes, and price points; and direct housing to areas with access to multimodal transportation options. This Housing Needs Assessment is intended to satisfy the requirements of this specific grant.

In alignment with the Mayor’s 2024 Strategic Doing framework, “Colorado Springs is striving to become an inspiring example of a city where everyone has the ability to choose housing that is right for them.” A recent Common Sense Institute report identified a current gap of up to 27,360 units within the City of Colorado Springs. With an estimated 7,221 new residents per year within the City, the scale of the housing shortage is larger than the City can tackle on its own.

The development of the Housing Needs Assessment provides the opportunity for local government, non-profits, industry representatives, and other organizations involved in housing preservation and production across the City to better understand the scope, scale, and nature of housing issues. In addition to addressing the identified housing unit shortage, this analysis will assist in identifying opportunities to increase the production and preservation of Affordable units to achieve the requirements set by the State of Colorado’s Proposition 123: 758 units per year or 2,224 units over the next 3 years.

Additionally, the assessment will satisfy the requirements of SB 24-174 (Section 3a of this document) with consideration to the requirements of HB24-1313 (attached) including, but not limited to, the requirements below in part 3.

The El Paso County Administration is considering participating financially in the Housing Needs Assessment which would extend the scope to include all areas of El Paso County. The City will still require an analysis of the tasks outlined below within the City limits.

C. SCOPE OF WORK

a. Task 1: Data Gathering for Baseline Components

The consultant will gather data as prescribed by Senate Bill 24-174 related to housing needs and displacement risk. The consultant will also gather data related to identified needs of the City of Colorado Springs.

i. SB 24-174 Requirements

The consultant will establish baseline components for the city including:

1. Existing housing diversity and stock;
2. Vacancy rates in all housing types;
3. Existing and projected housing shortages and surpluses for different household types and income levels, including extremely low-, very low-, low-, moderate-, and middle-income households as designated by the United States Department of Housing and Urban Development, and sorted by dwelling type, including accessible units, visitable units, supportive units, for-sale units, and rental units;
4. Population and demographics, including the number of households in the city, the number of jobs in the city sorted by annual salary and wage, and current median income;
5. Population change projections, job growth projections, and forecasted demographic trends;
6. The job-housing balance, including the availability of housing for low-income workers;
7. Measures of local resources dedicated to the development of affordable housing; and
8. Measures of homelessness and housing instability.
9. Identifies geographic areas at elevated risk of displacement in the city.
10. Assesses market limitations on the development of housing in the city.
11. Includes recommended policy and programmatic responses to the findings of the housing needs assessment, including the assessment of displacement risk.
12. Incorporates a portion of housing needs identified in any applicable state and regional housing needs assessment for the local government, as appropriate, based on the number of jobs and each local government's dependence on jobs in the region, among other factors, to promote a balance of jobs at all salary levels and homes affordable to persons in the region holding jobs at all income levels.

ii. Displacement Risk Assessment

The consultant will identify best available local data that can be analyzed to identify residents and areas within the City at elevated displacement risk, as defined by the Senate Bill, to include:

1. The percentage of households that are extremely low-, very low-, and low-income, as designated by the United States department of housing and urban development;
2. The percentage of residents who are renters;
3. The percentage of cost-burdened households, defined as households that spend more than thirty percent of the household's income on housing needs;

4. The number of adults who are twenty-five years of age or older and have not earned at least a high school diploma;
5. The percentage of households in which English is not the primary spoken language;
6. The number of single heads of household with children under eighteen years of age;
7. Data regarding rents or home values that are increasing at a substantially higher rate than adjacent neighborhoods in the region or city;
8. Data regarding neighborhoods with high volume of sales of owner-occupied or investor-owned housing;
9. Data regarding increased sales and use taxes generated from commercial and retail activity;
10. Data regarding business closures; and
11. The percentage of housing stock built prior to 1970;
12. Identify the location of manufactured home parks;
13. Identify areas that qualify as disadvantaged as determined with the climate and economic justice screening tool developed by the council on environmental quality in the office of the president of the United States;
14. Identify areas that will experience increased zoning capacity on or after January 1, 2025;
15. Identify the transit-oriented communities where increases in zoning capacity will occur as a result of the requirements of house bill 24-1313 part 2.

iii. Identified Needs of the City of Colorado Springs

The consultant will identify data points and methodologies to assess the following additional elements:

1. Identification of a healthy housing inventory, for rentals, supportive, and ownership opportunities, across each AMI level and geography; subsidized and unsubsidized.
2. Spatial analysis of underbuilt parcels
3. Housing gap estimate by tenure and income segment
4. Geographic identification of existing and projected housing need by housing type
5. Identification of units unavailable for purchase due to investor ownership or short-term rental occupancy
6. The housing needs and impact on housing inventory of the active-duty military population
7. Evaluation of employment characteristics and trends, as well as the economic drivers impacting the area
8. Number of housing units for rent or ownerships: single family, duplex/tri-plex/quad-plex, 5+ multi-family, 50+ multi-family
9. Portion of renters “renting down” at each AMI level (0-30% AMI, 30-50%, 50-70%, 70-80%, 80-100%, 100-120%, 120-140%, 140%+) by occupying housing that is more affordable than their income (ref: Rental Housing Gaps by AMI and County or Region, Colorado Housing Affordability Data Explorer).
10. Turnover and/or cycle time - e.g. how frequently a particular type of housing comes on the market, how quickly it is occupied, and how long before another unit of the same type becomes available.
11. Age and condition of housing stock
12. Data regarding rents or home values that are increasing at a substantially higher rate than adjacent neighborhoods in the region or city.

13. Number of seniors who are currently living in larger homes than they need because they can't find suitable homes to downsize to.

iv. Sources and Methodology

Long-term, the City would like to maintain an internal dashboard with ongoing updated information that would enable us to have a reasonably accurate housing needs assessment for our City at our fingertips. To achieve this, we want to partner with our selected consultant to identify valid and reliable data sources, define a data dictionary, and to understand and be able to replicate formulas, calculations, or algorithms being used.

Vendor shall return all City data to the City in a structured and secure digital format compatible with City information systems and technology standards. All City data residing on any Vendor owned systems is fully and completely removed and returned to the City or destroyed beyond restoration with industry standard destruction practices.

1. A detailed and cited list of the data sources used to produce the assessment.
2. A detailed data dictionary that clearly defines each data point, its definition, any formatting or standards the data must follow, the data source from which it was captured, and if it is a calculated or derived field, the formula, calculation, or algorithm used to generate the data.
3. For any portions of the analysis predicting future conditions, a brief description of the analysis approach and logic used to make the prediction, along with the key data fields or data sets used to generate the prediction, and any formulas, calculations, or algorithms used to generate the predicted outcomes.

b. Task 2: Housing Needs Assessment

The consultant will analyze data collected within Task 1 and produce a Housing Needs Assessment complete with analysis, graphs, and maps where applicable. The Housing Needs Assessment will encompass three separate document deliverables:

i. Housing Needs Assessment

This document includes all data points, graphs, maps, graphics, and supporting documentation.

ii. Executive Summary

The executive summary serves as an introduction and summarizes the key findings of the assessment.

iii. Presentation and Speaking Notes

Presentation materials and speaking notes that allow HCVD to communicate the analysis, engage partner organizations and community members, and generate support for additional strategy refinement and implementation planning.

c. Task 3: Recommendations

Based on findings within the Housing Needs Assessment the consultant will propose policy, programs, strategies, and identify barriers to address the housing needs of residents in the City of Colorado Springs. If El Paso County is a participant in the plan, recommendations should be tailored to the County’s population density, topography, and characteristics.

D. Considerations

The engagement of partners and residents across the city is critical to the development of a comprehensive Housing Needs Assessment. City staff and its community partners will manage the public participation aspect of completion of the assessment. The selected consultant will provide presentation materials and data points as needed.

Because this Housing Needs Assessment will be one of the first completed after the passing of SB 24-174, the City and selected consultant will coordinate with the State throughout the process to ensure the requirements of the Senate Bill are satisfied. Timeline below is subject to change based on this coordination. It is the intent of the City to formally submit the Housing Needs Assessment to the State before December 31, 2024 to satisfy the requirement outlined 24-32-3703 (b) of SB 24-174.

D. TIMELINE AND DELIVERABLES

The following key interim deliverables will allow HCVD to inform decisions on policy and programs while still in the development stages of a comprehensive Housing Needs Assessment. HCVD seeks to take advantage of recent attention on housing-related issues and move quickly. The table below summarizes the timeline for the key deliverables.

The Deputy Assistant Secretary may extend the time for filing any report.

3. 4. B. Requirements for bidders or prospective contractors—

3. CONSTRUCTION WAGE RATE REQUIREMENTS (DAVIS BACON) (From FAR 52.222-6)

The term "Contracting Officer" herein shall refer to the City of Colorado Springs Contracting Specialist assigned to this contract.

A. Definition.-“Site of the work”-

1. Means-

- a. *The primary site of the work.* The physical place or places where the construction called for in the contract will remain when work on it is completed.
- b. *The secondary site of the work, if any.* Any other site where a significant portion of the building or work is constructed, provided that such site is-
 - 1. Located in the United States; and
 - 2. Established specifically for the performance of the contract or project;

2. Except as provided in paragraph (3) of this definition, includes any fabrication plants, mobile factories, batch plants, borrow pits, job headquarters, tool yards, etc., provided-

- a. They are dedicated exclusively, or nearly so, to performance of the contract or project; and
- b. They are adjacent or virtually adjacent to the “primary site of the work” as defined in paragraph (a)(1)(i), or the “secondary site of the work” as defined in paragraph (a)(1)(ii) of this definition;

3. Does not include permanent home offices, branch plant establishments, fabrication plants, or tool yards of a Contractor or subcontractor whose locations and continuance in operation are determined wholly without regard to a particular Federal contract or project. In addition, fabrication plants, batch plants, borrow pits, job headquarters, yards, etc., of a commercial or material supplier which are established by a supplier of materials for the project before opening of bids and not on the Project site, are not included in the “site of the work.” Such permanent, previously established facilities are not a part of the “site of the work” even if the operations for a period of time may be dedicated exclusively or nearly so, to the performance of a contract.

B. All laborers and mechanics employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, or as may be incorporated for a secondary site of the work, regardless of any contractual relationship which may be alleged to exist between the Contractor and such laborers and mechanics. Any wage determination incorporated for a secondary site of the work shall be effective from the first day on which work under the contract was performed at that site and shall be incorporated without any adjustment in contract price or estimated cost. Laborers employed by the construction Contractor or construction subcontractor that are transporting portions of the building or work between the secondary site of the work and the primary site of the work shall be paid in accordance with the wage determination applicable to the primary site of the work.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Construction Wage Rate Requirements statute on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of

paragraph (e) of this clause; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such period.

Such laborers and mechanics shall be paid not less than the appropriate wage rate and fringe benefits in the wage determination for the classification of work actually performed, without regard to skill, except as provided in the clause entitled Apprentices and Trainees. Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein; provided that the employer's payroll records accurately set forth the time spent in each classification in which work is performed.

The wage determination (including any additional classifications and wage rates conformed under paragraph (c) of this clause) and the Construction Wage Rate Requirements (Davis-Bacon Act) poster (WH-1321) shall be posted at all times by the Contractor and its subcontractors at the primary site of the work and the secondary site of the work, if any, in a prominent and accessible place where it can be easily seen by the workers.

C. The Contracting Officer shall require that any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The Contracting Officer shall approve an additional classification and wage rate and fringe benefits therefor only when all the following criteria have been met:

1. The work to be performed by the classification requested is not performed by a classification in the wage determination.
2. The classification is utilized in the area by the construction industry.
3. The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

If the Contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the Contracting Officer agree on the classification and wage rate (including the amount designated for fringe benefits, where appropriate), a report of the action taken shall be sent by the Contracting Officer to the Administrator of the:

Wage and Hour Division
Employment Standards Administration
U.S. Department of Labor
Washington, DC 20210

The Administrator or an authorized representative will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the Contracting Officer or will notify the Contracting Officer within the 30-day period that additional time is necessary.

In the event the Contractor, the laborers or mechanics to be employed in the classification, or their representatives, and the Contracting Officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the Contracting Officer shall refer the questions, including the views of all interested parties and the

recommendation of the Contracting Officer, to the Administrator of the Wage and Hour Division for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the Contracting Officer or will notify the Contracting Officer within the 30-day period that additional time is necessary.

The wage rate (including fringe benefits, where appropriate) determined pursuant to paragraphs (c)(2) and (c)(3) of this clause shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

D. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the Contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

E. If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program; provided, That the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Construction Wage Rate Requirements statute have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

The term "Contracting Officer" herein shall refer to the City of Colorado Springs Contracting Specialist assigned to this contract.

B. *Violation; liability for unpaid wages; liquidated damages.* The responsible Contractor and subcontractor are liable for unpaid wages if they violate the terms in paragraph (a) of this clause. In addition, the Contractor and subcontractor are liable for liquidated damages payable to the Government. The Contracting Officer will assess liquidated damages at the rate of \$10 per affected employee for each calendar day on which the employer required or permitted the employee to work in excess of the standard workweek of 40 hours without paying overtime wages required by the Contract Work Hours and Safety Standards statute (found at 40 U.S.C. chapter 37).

C. *Withholding for unpaid wages and liquidated damages.* The Contracting Officer will withhold from payments due under the contract sufficient funds required to satisfy any Contractor or subcontractor liabilities for unpaid wages and liquidated damages. If amounts withheld under the contract are insufficient to satisfy Contractor or subcontractor liabilities, the Contracting

Officer will withhold payments from other Federal or federally assisted contracts held by the same Contractor that are subject to the Contract Work Hours and Safety Standards statute

D. Payrolls and basic records.

1. The Contractor and its subcontractors shall maintain payrolls and basic payroll records for all laborers and mechanics working on the contract during the contract and shall make them available to the Government until 3 years after contract completion. The records shall contain the name and address of each employee, social security number, labor classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid. The records need not duplicate those required for construction work by Department of Labor regulations at 29 CFR 5.5(a)(3) implementing the Construction Wage Rate Requirements statute.

9. PROCUREMENT OF RECOVERED MATERIALS

The Contractor must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

10. ANTI-KICKBACK PROCEDURES

A. Definitions.

1. "Kickback," as used in this clause, means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided to any prime Contractor, prime Contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a subcontract relating to a prime contract.

7. "Subcontractor," as used in this clause,
 - a. Means any person, other than the prime Contractor, who offers to furnish or furnishes any supplies, materials, equipment, or services of any kind under a prime contract or a subcontract entered into in connection with such prime contract, and
 - b. Includes any person who offers to furnish or furnishes general supplies to the prime Contractor or a higher tier subcontractor.

8. "Subcontractor employee," as used in this clause, means any officer, partner, employee, or agent of a subcontractor.

B. The 41 U.S.C. chapter 87, Kickbacks, prohibits any person from --

1. Providing or attempting to provide or offering to provide any kickback;
2. Soliciting, accepting, or attempting to accept any kickback; or
3. Including, directly or indirectly, the amount of any kickback in the contract price charged by a prime Contractor to the United States or in the contract price charged by a subcontractor to a prime Contractor or higher tier subcontractor.

C. The Contractor shall have in place and follow reasonable procedures designed to prevent and detect possible violations described in paragraph (b) of this clause in its own operations and direct business relationships.

When the Contractor has reasonable grounds to believe that a violation described in paragraph (b) of this clause may have occurred, the Contractor shall promptly report in writing the possible violation. Such reports shall be made to the inspector general of the contracting agency, the head of the contracting agency if the agency does not have an inspector general, or the Attorney General.

The Contractor shall cooperate fully with any Federal agency investigating a possible violation described in paragraph (b) of this clause.

The Contracting Officer may

1. offset the amount of the kickback against any monies owed by the United States under the prime contract and/or
2. direct that the Prime Contractor withhold from sums owed a subcontractor under the prime contract the amount of the kickback. The Contracting Officer may order that monies withheld under subdivision (c)(4)(ii) of this clause be paid over to the Government unless the Government has already offset those monies under subdivision (c)(4)(i) of this clause. In either case, the Prime Contractor shall notify the Contracting Officer when the monies are withheld.

The Contractor agrees to incorporate the substance of this clause, including subparagraph (c)(5) but excepting subparagraph (c)(1), in all subcontracts under this contract which exceed \$150,000.

11. ENERGY EFFICIENCY IN ENERGY CONSUMING PRODUCTS

A. Definition. As used in this clause--

1. "Energy-efficient product"—
 - a. Means a product that—

- i. Meets Department of Energy and Environmental Protection Agency criteria for use of the Energy Star trademark label; or
- ii. Is in the upper 25 percent of efficiency for all similar products as designated by the Department of Energy's Federal Energy Management Program.

2. The term "product" does not include any energy-consuming product or system designed or procured for combat or combat-related missions (42 U.S.C. 8259b).

B. The Contractor shall ensure that energy-consuming products are energy efficient products (i.e., ENERGY STAR® products or FEMP-designated products) at the time of contract award, for products that are—

1. Delivered.
2. Acquired by the Contractor for use in performing services at a Federally controlled facility.
3. Furnished by the Contractor for use by the Government.
4. Specified in the design of a building or work, or incorporated during its construction, renovation, or maintenance.

C. The requirements of paragraph (b) apply to the Contractor (including any subcontractor) unless:

1. The energy-consuming product is not listed in the ENERGY STAR® Program or FEMP; or
2. Otherwise approved in writing by the Contracting Officer.

D. Information about these products is available for—

1. ENERGY STAR® at <http://www.energystar.gov/products>; and
2. FEMP at http://www1.eere.energy.gov/femp/procurement/eep_requirements.html.

12. BUY AMERICAN—CONSTRUCTION MATERIALS

A. Definitions. As used in this clause—

1. "Commercially available off-the-shelf (COTS) item"—
 - a. Means any item of supply (including construction material) that is—
 - i. A commercial item (as defined in paragraph (1) of the definition at FAR [2.101](#));
 - ii. Sold in substantial quantities in the commercial marketplace; and

- iii. Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
 - b. Does not include bulk cargo, as defined in [46 U.S.C. 40102\(4\)](#), such as agricultural products and petroleum products.
- 2. “Component” means an article, material, or supply incorporated directly into a construction material.
- 3. “Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.
- 4. “Cost of components” means—
 - a. For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
 - b. For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.
- 5. “Domestic construction material” means—
 - a. An unmanufactured construction material mined or produced in the United States;
 - b. A construction material manufactured in the United States, if—
 - i. The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.
 - b. The construction material is a COTS item.
- 6. “Foreign construction material” means a construction material other than a domestic construction material.

7. “United States” means the 50 States, the District of Columbia, and outlying areas.

a. Domestic preference.

i. This clause implements [41 U.S.C. chapter 83](#), Buy American, by providing a preference for domestic construction material. In accordance with [41 U.S.C. 1907](#), the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR [12.505\(a\)\(2\)](#)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

ii. This requirement does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

b. The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that—

i. The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

ii. The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

iii. The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

8. Request for determination of inapplicability of the Buy American statute.

a. Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including—

i. A description of the foreign and domestic construction materials

ii. Unit of measure

iii. Quantity

iv. Price

v. Time of delivery or availability

vi. Location of the construction project

vii. Name and address of the proposed supplier

viii. A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

b. A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

FOREIGN AND DOMESTIC CONSTRUCTION MATERIALS PRICE COMPARISON

Construction Material Description	Unit of Measure	Quantity	Price (Dollars)*
Item 1:			
Foreign construction material	_____	_____	_____
Domestic construction material	_____	_____	_____
Item 2:			
Foreign construction material	_____	_____	_____
Domestic construction material			

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

[* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]

13. INFRASTRUCTURE INVESTMENT AND JOBS ACT, BUILD AMERICA, BUY AMERICA

THIS SECTION ONLY APPLIES TO PROJECTS THAT HAVE A TOTAL COST OF \$250,000 OR MORE AND THAT INCLUDE THE USE OF IRON OR STEEL.

Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this Agreement may be used for a project for infrastructure unless:

A. All iron and steel used in the PROJECT are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

B. All manufactured products used in the PROJECT are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.

C. All construction materials (excludes cement and cementitious materials, aggregates such as stone, sand, or gravel, or aggregate binding agents or additives) are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.

D. The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

E. Definitions:

“Construction materials” includes an article, material, or supply—other than an item of primarily iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives 46—that is or consists primarily of:

1. Non-ferrous metals

2. Plastic and polymer-based products (including polyvinyl/chloride, composite building materials, and polymers used in fiber optic cables)
3. Glass (including optic glass)
4. Lumber; or drywall

F. Subrecipient Agreements

Contractors and their subcontractors who apply or bid for an award for an infrastructure project subject to the domestic preference requirement in the Build America, Buy America Act (BABAA) shall file the required certification to the City with each bid or offer for an infrastructure project, unless a domestic preference requirement is waived by the federal awarding agency. Contractors and subcontractors certify that no federal financial assistance funding for infrastructure projects will be provided unless all the iron, steel, manufactured projects, and construction materials used in the project are produced in the United States. BABAA, Pub. L. No. 117-58, §§ 70901-52. Contractors and subcontractors shall also disclose any use of federal financial assistance for infrastructure projects that do not ensure compliance with BABAA domestic preference requirement. Such disclosures shall be forwarded to City who in turn will forward the disclosures to the federal awarding agency; subrecipients will forward disclosures to the City, who will in turn forward the disclosures to the federal awarding agency.
